

Symposium celebrating the 25th anniversary of the NVBM

The Future Weather Factory: Weather, Climate and Society

9:00: Walk in

9:30: Welcome by NVBM chairman Albert Klein Tank

9:35: Robert Mureau: *The NVBM and the role of the forecaster: what's new?*

10:05: **Session: Future Needs from Stakeholders**

Erik Holtslag (Ecofys):

Wind and meteo: common energy

Boudewijn Hulsman (JMG):

Future Met support for NL defense

Marco Bobeldijk (Allianz Benelux):

Managing the effect of increasing natural catastrophic events: an insurance perspective

Jeroen van Leuken (RIVM):

Meteorology and infectious diseases: a risk for public health?

Open floor debate

11:15: Coffee and tea break

11:30: NVBM awards ceremony

12:15: Lunch buffet, business market and "Stranger Blues"

14:00: **Session: Current and Future Developments in Meteorology**

Lee Chapman (University Birmingham)

Urban meteorological networks: An exemplar of the future of high density weather data?

Wilco Hazeleger (NL eScienceCenter):

We want more: next generation high resolution weather and climate forecasts

Arnold Moene (Wageningen University):

Educating future meteorologists: on disciplinary didactics and interdisciplinary skills

Gerard van der Steenhoven (KNMI):

Developments in meteorology from the national weather service perspective

Mark Higgins (EUMETSAT):

EUMETSAT's support to operational weather services Europe today and tomorrow

15:40: Coffee and tea break

16:00: Open floor debate

17:00: Summary by chairperson

17:15: Party with food and the AJO salon orchestra

20:00: Closure
